When the tardy arrival of members, many of whom were detained by the wheat harvest in progress, finally furnished a quorum, the minutes of the last meeting were read, and thereupon one of our Solons criticized the word "exhaustive" as applied by the secretary to the essay of William Hunter, ir. He thought the subject had not been exhausted by any means. The secretary told him him there was a difference between exbaustive and exhausted, and appealed to the club; so there was a difference of opin-ion about it, and it being too warm to become involved in any heated discussion we passed on to more important matters. The member in question being one of the committee on fertilizers, we will charitably sup-

with it.
J. N. Gibbs then read the critical report which spoke of finding things generally in good order. The grass fields are much clearer of weeds than many in the neighborhood-oats and corn both looking well for the season. The improvements about the house, especially three new porches, were alluded to in commendation and an increase in the size of the lawn was recommended. The stock were all in good condition, mostly fat. Some fine brood mares were alluded to but the absence of young colts was noted. The sheep had recently been sold at a fair profit. Some one interest of the size of the control of the size of quired about the difference in the size of the corn—one part of the field being larger than the other. No reason could be assigned except the difference of two or three days in

the same to me at my residence in said county, duly authenticated, for payment, and all persons indebted to said estate are requested to make payment to me without delay.

The subject of garlic coming up, a recent remedy for its extinction mentioned in the American Farmer was alluded to-cutting it just after it came in blossom-but this was thought by most members to be a mistake.

President Pierson thought covering with straw and burning would destroy it, but instances were mentioned where it had come in and made an exceptionally thrifty growth

Take notice that, acting under a decree of the Circuit Court of the city of Richmond, entered February 6th, 1898, I will be prepared on and after Thursday, February 9th, at my office, No. 306 Prince street, to pay to those entitled the fourth dividend upon their bonds. Persons claiming dividends must produce bonds or the special commissioners' receipt therefor. tinue them for duty at the next meeting, and the committee on grasses and forage crops were also requested to report.

The President asked what the prospect was for a crop of wheat, the replies being mostly quite favorable, considering the bad appearance of many fields early in the spring. Some few instances of blasted heads have come in from the interior.

Call and see at 88 King, corner of A BANK CLERK'S PUNISHMENT .- A new method of punishing dishonest bank clerks is now being tried in a certain institution of that kind in New York. Some time ago a clerk's accounts were investigated and he was found to be several thousand dollars short. To remove and prosecute the man would have been troublesome and apt to hurt the reputation of the bank, so they have made him stay, as if nothing had happened, but have placed him in such a position that he can take no more, and inform ed his fellow clerks of the defalcation. He is avoided by the insiders, and his position is about as disagreeable as can well be imagined.
